STATE LAND OFFICE,

CARSON CITY, Nev., September 2, 1898.

NOTICE IS HEREBY GIVEN THAT THE

State of Nevada, under the Act of Congress

approved June 16, 1880 (Act No. 297), has

filed in the United States Land Office at Carson

City, Nevada, List No. 290 of lands selected

under said act, and has applied for a patent

for said lands; that a part of said list is open

to the public for inspection, and a copy

thereof, by descriptive sub-divisions, has

been posted in a convenient place in said

United States Land Office for the inspection

of all persons interested and the public generally.

Within the next sixty days following the

date of this notice protests and contests

against the claim of said State of Nevada to

any tract or sub-division described in the

list, on the ground that the same is more

valuable for mineral than agricultural purposes, will be received and noted by the

Register and Receiver of the United States

Land Office at Carson City, Nevada, for report

to the General Land Office at Washington, D. C.

The following are the sub-divisions described:

SW 1/4 of NW 1/4 and NW 1/4 of SE 1/4 of Sec.

10, T. 2 N., R. 10 E., M. D. H. & M. - 80 acres.

A. C. P. & A. T. T.

State Land Register of the State of Nevada.

Date of first insertion, September 2, 1898.

Laughed Away the Danger.

Ben Cable of Illinois tells of an experience of his in mid-ocean. The day was foggy, and most of the passengers were below listening to two evangelists who were holding a particularly fervid gospel meeting in the saloon. Suddenly, and without the slightest warning, there was a terrific crash and the engines stopped. Every one rushed on deck. The steamer had run into an iceberg.

Nobody knew what damage had been done, and everybody was ready to fly into a panic. The boats were lowered, and then for the first time the two evangelists, who had been forgotten in the saloon, appeared on deck. They wore their overcoats and their hats and they carried their guns and handbags. They elbowed their way rudely to the rail, with the evident intent of securing for themselves first places in the boat. It was a desperate time when a breath would have sent the passengers in panic-stricken into the boats.

The sight of the two evangelists was about to undo the work of cool-headed officers, when a small little cool-headed fellow stepped up to the gentlemen with the guns and handbags.

"Beg pardon," said he, tipping his cap, "have a cab, sir?"

And in the general laugh, the danger of panic was averted. Washington Post.

The Horrors of Manila.

Among the first things to impress a stranger are the horses. Descended from horses brought from Mexico, they have become much smaller, while they are also much more shapely. In fact, I have never seen a better looking breed. There is a small size, but they are strong, though in size they range between 48 and 52 inches. At first it looked absurd to see them ridden by big men whose stirrups hung down to the horses' knees, but I soon found out that they easily carried a rider weighing 200 pounds. The foreigners have a jockey club, which holds two meetings a year at the beautiful turf track at Santa Mesa. To admit sharp practice, members of the club only are eligible to ride. This necessitates a scale of weights starting at 153 pounds and rising to 164 pounds. It demonstrates the speed and strength of these miniature horses that a mile has been run in 2:10 by a pony carrying 150 pounds. Only stallions are used. Mares cannot even be brought into the city. Nobody is allowed to ride, and on any special fiesta thousands of carriages fill the streets. I doubt if there is a city in the world that can turn out half the number of private vehicles in proportion to the population.

Faithful Unto Death.

On the point of courage we have not yet seen in print a very notable instance that is current in service circles. It relates to one of the numerous heroic but useless struggles on the northwest frontier of India when our men were sent forward to carry positions that had to be relinquished as soon as occupied. When the men were retiring, harassed by the fire of the hillmen and bewildered by the growing darkness, a party of 18 went astray and found themselves in a position where resistance and retreat were alike hopeless. They were exposed without protection and were shot down one by one.

When their comrades retraced the valley and discovered the bodies, they discovered also the evidences of a rare act of courage, devotion and cool judgment. Knowing that their end had come, and knowing further that every Lee-Metford rifle that fell into the hands of the Afghans meant the loss of many English lives, the men had extracted the breech locks from the rifles and hurled them down the ravine, so that the rifles when taken should be useless to their captors. —London Saturday Review.

The Nagur and the Fiddle.

Here is a story that the late Frederick Douglass used to tell about himself, says the Buffalo Express. Once when he was in Dublin he felt very lonesome. He was wandering about the streets when he was attracted by two violins in the window of a secondhand dealer. Frederick entered and asked the price of one of the instruments.

"Five shillings, sir," said the Irish dealer.

Frederick tuned the violin and began to play "Rocky Road to Dublin." Soon the proprietor's wife heard the music and entered the rear door. Then Frederick started in on "The Irish Washerwoman," and the couple began to dance for dear life. When the music and dancing stopped, Frederick tendered the dealer 5 shillings, but his performance on the violin had greatly enhanced its value in the mind of the storekeeper, and as he hurried away to a place of security he exclaimed:

"If a black nagur can git sich chunes out of that fiddle, I'll never sell it at any price, begorra!"

A Wonderful Time Divider.

The new pendulum chronoscope is said to be the most wonderful timing instrument in the world. It measures accurately down to the one-thousandth part of a second. It can be used with the quickness of a stop watch, and neither electrician nor mathematician is needed to operate the instrument, which is mechanical, with simple electrical attachments. The speed of a cannon ball can be determined by the new timer, and it will tell the lapse of time between the firing of a revolver and the starting of a runner, or determine how long it takes a boxer to deliver a blow.

Where She Got Them.

"But," said the inquisitive bachelor after the baby had been carefully placed in his arms, "where does she get her blue eyes? Yours are dark and so are her papa's."

"Oh," the fond young mother explained, "she inherits them from my side of the family. My brother Will's wife has just such eyes exactly." —Cleveland Leader.

FREE MEDICAL TREATMENT

for Weak Men

Who Are Willing to Pay When Convinced of Cure.

A scientific combined medical and mechanical cure has been discovered for "Weakness of Men." It is a cure so startling that the proprietors now announce that they will send it on trial—remotest and appliances without advance payment—to any honest man. If not all that is claimed—all you wish—send it back—that ends it—pay nothing! No such offer was ever made in good faith before. We believe no other remedy would stand such a test. This combined treatment cures quickly, thoroughly and forever all effects of early evil habits, later excesses, overwork, worry, etc. It cures indigestion, strength, vitality, sustaining powers and restores weak and undeveloped portions to natural dimensions and functions. Any man writing in earnest will receive description, particulars and references in a plain sealed envelope. Professional confidence. No deception nor imposition of any nature. A national reputation.

Backs this offer. (Cut out and send this notice, or mention paper.) Add:

THURSDAY, SEPTEMBER 15, 1898.

PUBLISHED BY THE NEVADA ADVERTISING OFFICE, 220
TO 24 Temple Court, New York City
& Kala Agent.SHOULD INDORSE STEWART AND
NEWLANDS.

The Republican State Convention is called to meet in this city to-day to nominate a full State ticket. The party manipulators admit that they are experiencing much difficulty in getting respectable citizens to accept nominations. The rank and file of the party, who have been kept in the traces for years by the assurances of the leaders that they favored free coinage as much as the silver men, still believe in the restoration of silver, which alone will repopulate our deserted mining camps and furnish a home market for the farm products of the valleys.

These men favor the indorsement of Senator Stewart and Representative Newlands by the convention. They ask, what benefit Nevada could derive from sending men to Congress who would be in full accord with Hanna and opposed to any and all legislation favorable to silver? While the leaders evade the question they are not disposed to ignore the mandate of Mr. Hanna, that they shall not demand the restoration of free coinage in their platform, and unless they do so they cannot indorse Senator Stewart and Mr. Newlands, who are both recognized as champions of the silver cause.

It is believed that a majority of those who will compose the convention to-day are silver men at heart, as they see the blighting, withering effect of the single standard in the deserted mining camps of the State, and that they will declare for free coinage as they did in May, 1896, and insist on the indorsement of our present Congressional delegation. Such a course would be mainly and would relieve the party from the suspicion that in Nevada as in Ohio it is dominated by Mr. Hanna, and opposed to the best interests of the State and Nation.

MAINE AS BAD AS VERMONT

The people of Maine like those of Vermont seem disgusted with Hannaism and its deceptive prosperity. An election was held in Maine last Monday and the returns are a great disappointment to the Administration. Every effort was made by the Republicans to poll a big vote. The volunteers at Camp Powers, who promised to vote the Republican ticket, were furnished with free transportation to their homes and nothing that a liberal expenditure of money could do to swell the party vote, was left undone.

The rank and file of the party did not rally as in former years, however, and the result is an estimated loss of thirty-three per cent in the Republican vote and a gain of over twelve per cent in the opposition vote.

It is believed that Algerism as well as Hannaism had something to do with the Republican loss in Maine. A regiment of fine healthy men, left the State a few months ago by order of the War Department for Camp Thomas. It returned two weeks ago considerably reduced in numbers, with scarcely a well man in the ranks. Though the regiment had never been out of the United States, a large percentage of the men died of fever, and those who survived the horrors of Camp Thomas, arrived at home mere physical wrecks, victims of Alger's incompetence.

THE POPULIST PLATFORM.

The platform adopted by the Populist State Convention and printed in yesterday's JOURNAL contains much that is commendable because it is true, and at least one plank that is reprehensible because it condemns the Silver Party for what that party is not guilty of and never countenanced. That plank reads as follows:

"We favor home rule in Nevada as the people of this State are abundantly able to furnish all the men for offices in Nevada without importation from other States, and we condemn the Silver Party now in power in this State for such importation."

The gentlemen whose names are appended to the Populist platform are old residents and respectable citizens of Nevada, and it seems unaccountable that they should make such a charge against the Silver Party. They certainly know, if they give the matter a moment's thought, that it is a misstatement. The Silver Party imported no man to give him office, and though Democratic and Republican Administrations have done so they escape the condemnation of our Populist friends.

Mr. Cleveland and Mr. McKinley appointed Eastern men to Federal positions in Nevada, but the Silver Party is no more responsible than the Populist's for the acts of those gentlemen.

GROSVENOR TO ALGER.

A few weeks ago when the newspapers began to direct attention to the incompetents in the War Department those that intimated that Alger's political methods were liable to cause the death of thousands of soldiers from disease were denounced by the Administration organs as treason spreading sheets. Now the whole people, with the exception of those who defend the Administration right or wrong, are boiling over with indignation as the proofs of loss of life and suffering caused by the incompetency

and negligence of the favored appointees to important positions are furnished by correspondents and by soldiers who are returning to their homes. Among those who have called Secretary Alger's attention to the fact that soldiers are dying of neglect and starvation is Congressman Grosvenor of Ohio. A soldier named Hugh Parrett, whose parents reside in Grosvenor's district, died at Camp Wikoff. It was reported that he died of neglect and without receiving any medical attention whatever. This report caused intense excitement and Congressman Grosvenor wrote the War Department, saying: "It is idle to suppress the fact that there is an absolute mine of indignation abroad in the country. That there are villains connected with the handling and care of our soldiers that make humanity quail there is no doubt in my mind. I know nothing about Dr. Tabor, the man to whose negligence young Parrett's death is attributed, but if he treated this man in the manner reported Tabor ought to be shot. A few executions of such persons will rescue the Administration from the wrath that hangs over it. I will stand by the Administration to any reasonable and patriotic extent, but I will not stand by and see any man go unpunished who has been guilty of what this man seems to have been guilty of."

The letter caused the Secretary of War to order an investigation in the case of young Parrett. This, if fairly conducted, will throw some light upon the methods adopted to provide for sick soldiers at Montauk Point.

TELEGRAPHIC NOTES.

Three members of the Peace Commission, Secretary Day, Senator Davis and Whitelaw Reid, held a two hours conference at the State Department at Washington yesterday. Senator Frye is expected to arrive to-day and join in the conference. Senator Gray, the sixth member, is also expected to arrive. The Commission will be entertained at dinner this evening by President McKinley.

The Peace Commissioners will leave Washington Friday and take the Campania at New York on Saturday. The meeting yesterday was for the purpose of going over the peace settlement. The members decline positively to discuss any of the measures proposed, saying that if its attitude was made known in advance of the meeting at Paris the interests of this country might be seriously prejudiced.

Contracts for three new battleships have been awarded, one vessel goes to Cramps, another to the Newport News shipbuilding company and the third to the Union Iron Works, San Francisco.

The Democratic State Convention of Utah met at Salt Lake yesterday. O. S. Varian was elected temporary chairman, committees were appointed and a recess was taken.

Walter Rosser, a drunken Tennessee soldier, murdered Henry Hilderbrand, an inoffensive clerk, in San Francisco on Tuesday night. The murderer was arrested but his examination was postponed until after the inquest.

The insurgents evacuated Manila yesterday. They did so in a grand march in which 3,000 men took part. As they moved along they shouted "Viva Americanos" "Viva Philippine libes"

The Turkish Government has sent a circular to the powers alleging that the British provoked the disorder at Candia. The Porte announces its refusal to withdraw the troops from Crete. The circular has made a bad impression.

The remains of the Empress of Austria were conveyed to the railroad depot at Geneva yesterday and taken to the place of interment. They will be buried temporarily and finally laid beside those of Crown Prince Rudolph.

Japanese papers are urging the United States Government to retain possession of the Philippines permanently.

Senator James K. Kyle of South Dakota was stricken with paralysis yesterday at Cleveland. He remained unconscious and is in a serious condition.

The Poor Editor.

Bill—Did you read about that fellow writing a poem on a \$50 bill?
Jill—No. The editor kept it, of course.

"No He returned it."
"What, an editor return a \$50 bill?"
"Yes He didn't know what it was."
—Yonkers Statesman.

One of the tallest stacks in Great Britain is situated at Llanelli. From the base of the foundation to the extreme summit is 400 feet high. The cap of the top weighs 27 tons, and 720,000 bricks were used in its construction. It is circular in form, and in a gale bends extremely.

Banana Flour.

The next dietetic fad is going to be banana flour. Manufacturers are experimenting in this direction and promise soon a meal that will keep as long as wheat flour and make a much more nutritious bread. As already the craze for whole wheat flour is passing, this new alibumen will undoubtedly meet a quick welcome when it comes. The use of the banana has developed its great value as an article of food, and the great army of banana consumers are prepared to accept eagerly its further development. —New York Post.

Dear.

It is natural for a rich man to become familiar with a professional man he hires and to address his physician as "My dear doctor." But to his solicitor "My dear sir" or "My dear lawyer" is a good deal more than a mere formality. —New Orleans Picayune.

THE SECRET OF BEAUTY.

One Can Never Be Pleasant to Look Upon Unless In Good Health.

"The most helpful and agreeable bath is that of tepid water," writes Ruth Ashmore in The Ladies' Home Journal. "Few people can stand absolutely cold baths, and, no matter how strong one may be, such a bath should not be indulged in unless a thorough rubbing be taken afterward. To speak plainly, it must be remembered that while a cold bath may be more or less invigorating it is not cleansing. I can easily understand the desire of every woman to have a clear, beautiful skin, but I confess to being provoked when I think of the amount of money spent on lotions, creams and powders to be applied externally and which have nothing like as good an effect upon the skin as a tepid bath with good soap taken at least once a week."

The condition of the skin depends almost entirely upon the care given to the general health. The girl who is up late at night, gives no care to her diet, indulges in various stimulants, bathes but seldom and exercises less is certain to have either a dull, muffled looking skin or one covered with disagreeable looking black and red spots. One should avoid many sweets and much pastry and not allow herself to become a slave either to tea or coffee any more than she would to some vicious drug or strong stimulant. She should also remember that unless she is in good condition internally she will be anything but a pleasant object to look upon externally."

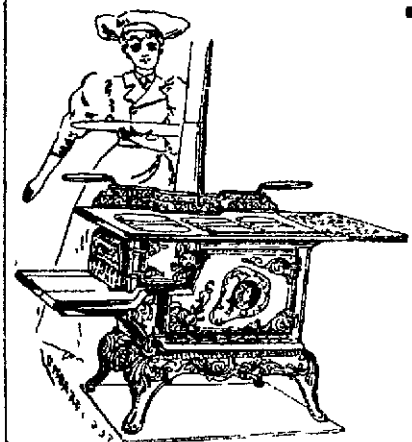

Smokeless Powder.

It is a curious fact that with all of the improvements and modifications so notable in our navy we are still using the old fashioned smoky, smelly powder that envelops everything in a gray pall, obscures the view and confuses the gunners. Only one of our ships has been using cordite, the wonderful smokeless powder which the English navy has adopted. The results with this ship, the New Orleans, were truly amazing. The rapidity, accuracy and precision of her fire were the admiration of all observers. Smokeless powder has several advantages. There is no obscuring of the view, the explosion producing the merest haze, which lasts but an instant. It leaves but little residuum in the gun, has much more power and is every way more desirable. Higher muzzle velocity is obtained with a projectile, as the powder burns much more slowly than the ordinary sort, and, therefore, generates more gas as the ball travels up to the mouth of the gun. The demand for smokeless powder seems to be one of the imperatives of the immediate future. —New York Ledger.

Heat and Fuel Savers.

How long are you going to "get along" with that old cookstove that burns more fuel than a furnace and heats the outdoors more than it does the oven?

A very little money will buy one of our cookstoves—you'll save the price in fuel in one season. It will keep the heat where it ought to be, and cook your food as it ought to be cooked. Come in and examine them.
